Dear Tom,

Your company did an outstanding job on the plastering and painting of our gym. The job was done in a most professional manner. You should be very proud of Pete and his crew, anything that was asked of them was accomplished. The painting of the entranceway into the gym was just an additional way to exemplify the workmanship of your company.

I would highly recommend your company and you will be the first painting contractor we call for any work.

Thank you for a job well done.

Sincerely,

Timothy McEndy  
Business Manager
